# MOTOTRBO™ APPLICATION CATEGORIES

**NOTE:** Not every feature listed in the Categories below is offered in all applications included in that category. This list is simply meant to provide you with a guide of common features that applications in each category **may** include. To learn which features an individual application supports, please visit the developer website or contact their sales team.

## FLEET MANAGEMENT

- GPS Tracking & Reporting
- Status/Telemetry Monitoring
- Text/Email Tx/Rx
- Event-based GPS Monitoring (Man-down, Lone-worker, Emergency, Telematics)

## ALARM MANAGEMENT

- Alarm Control
- Facility Alarm Dispatch

## PERSONNEL TRACKING

- Personal Accountability Timer
- Indoor Bluetooth Positioning
- Indoor Tracking - Beacons

## DISPATCH CONSOLE

- VoIP, Text & Telemetry Tx/Rx
- Radio Signaling (Check, Disable/Enable, Monitor, Call Alert)
- Monitor Multiple Talkgroups Simultaneously
- Cross-Patch
- Voice Logging & Reporting

## EMAIL GATEWAY (Standalone)

- Send & Receive Radio Text/Email
- Enable Work-order Management Applications

## JOB TICKET MANAGEMENT

- Work-flow Automation
- Customer Relationship Management
- Service Order Dispatching

## INTEROPERABILITY

- Cross-Connect Analog & Digital, Conventional & Trunked systems
- Telephone-interconnect: PBX, PSTN, iDEN, Cellular
- Cross-connect Radio to WiFi/WAN Mobile Computing
- SCADA

## NETWORK MONITORING

- Real-time MOTOTRBO System Traffic , IP Network & Connectivity Monitoring
- Radio Infrastructure Controls, Diagnostics, Alarms
- Logging & Reporting
- Subscriber Access Control
- Statistical Analysis and custom report generation

## OPTION BOARD

- Use the Expansion Card to add capability to MOTOTRBO
- Ex: Man-Down, analog encryption

## SYSTEM TOOLS & NETWORK ADMIN

- Usage reports
- Coverage mapping
- System alarms
